Summer is here and that means many of us are enjoying the beautiful weather and a diverse range of activities in New Zealand waters. Thanks to Surf Life Saving and Coastguard we have some of the best and most committed rescue services to help keep us safe in the water, performing thousands of rescues every year.

*With this in mind, **a group are** undertaking some research in current water safety practices and identifying whether new approaches, devices and systems can improve our safety, search and rescue processes through new technologies and services.*

To assist and participate in this valuable research the following short [survey](#) is available for you to complete
