

Circular 037:18

Date: 15th March 2018

Subject: Support Services Review – Call for expressions of interest

Attention: All members

Action: Register interest in the Support Services review

Circulars are available at: <http://lifesaving.org.nz/lifesaving/lifesaving-operations-circulars/>

The last Support Services review was conducted in 2014 so Surf Life Saving Northern Region is currently seeking expressions of interest from members interested in participating in a review of the current delivery of the various Support Services.

Each area of the Support Services will require a small working group of 3-5 members to be led by a member of the Lifesaving Advisory Group (LAG) to review and address a number of key questions about the service's delivery, effectiveness and potential future application.

Areas for review:

- RWC (Rescue Water Craft)
- Surfcom
- Duty Officer
- Peer Support
- Patrol Audit
- Event Lifeguarding

The LAG hopes to have varied levels of expertise and exposure to the various areas under review to accurately evaluate the support services success, challenges and contribute to future direction.

If you are interested in being involved in this review process for one or more areas of the Support Services please complete a brief survey [here](#) for consideration.

Expressions of interest must be received no later than 5pm Friday 30th of March.
