Circular 067:18

Date: 5th July 2018

Subject: Lifeguard Paediatric CPR Study Published

Attention: Club Managers, Club Lifesaving Officers and Operational Lifeguards

Action: For information

Circulars are available at: <http://lifesaving.org.nz/lifesaving/lifesaving-operations-circulars/>

During the 2016/17 season, approximately 250 SLSNR members took part in a study investigating knowledge and perception of surf lifeguards in paediatric resuscitation. The study was comprised of a written questionnaire followed by a practical test on a child CPR manikin.

The study has now been published, and a full copy of the results can be found here:
<https://rdcu.be/1VXw>.

Anyone who took part in the study, and those with an interest in resuscitation practice or education are encouraged to read the article.
